

Careers you did not think of in IT

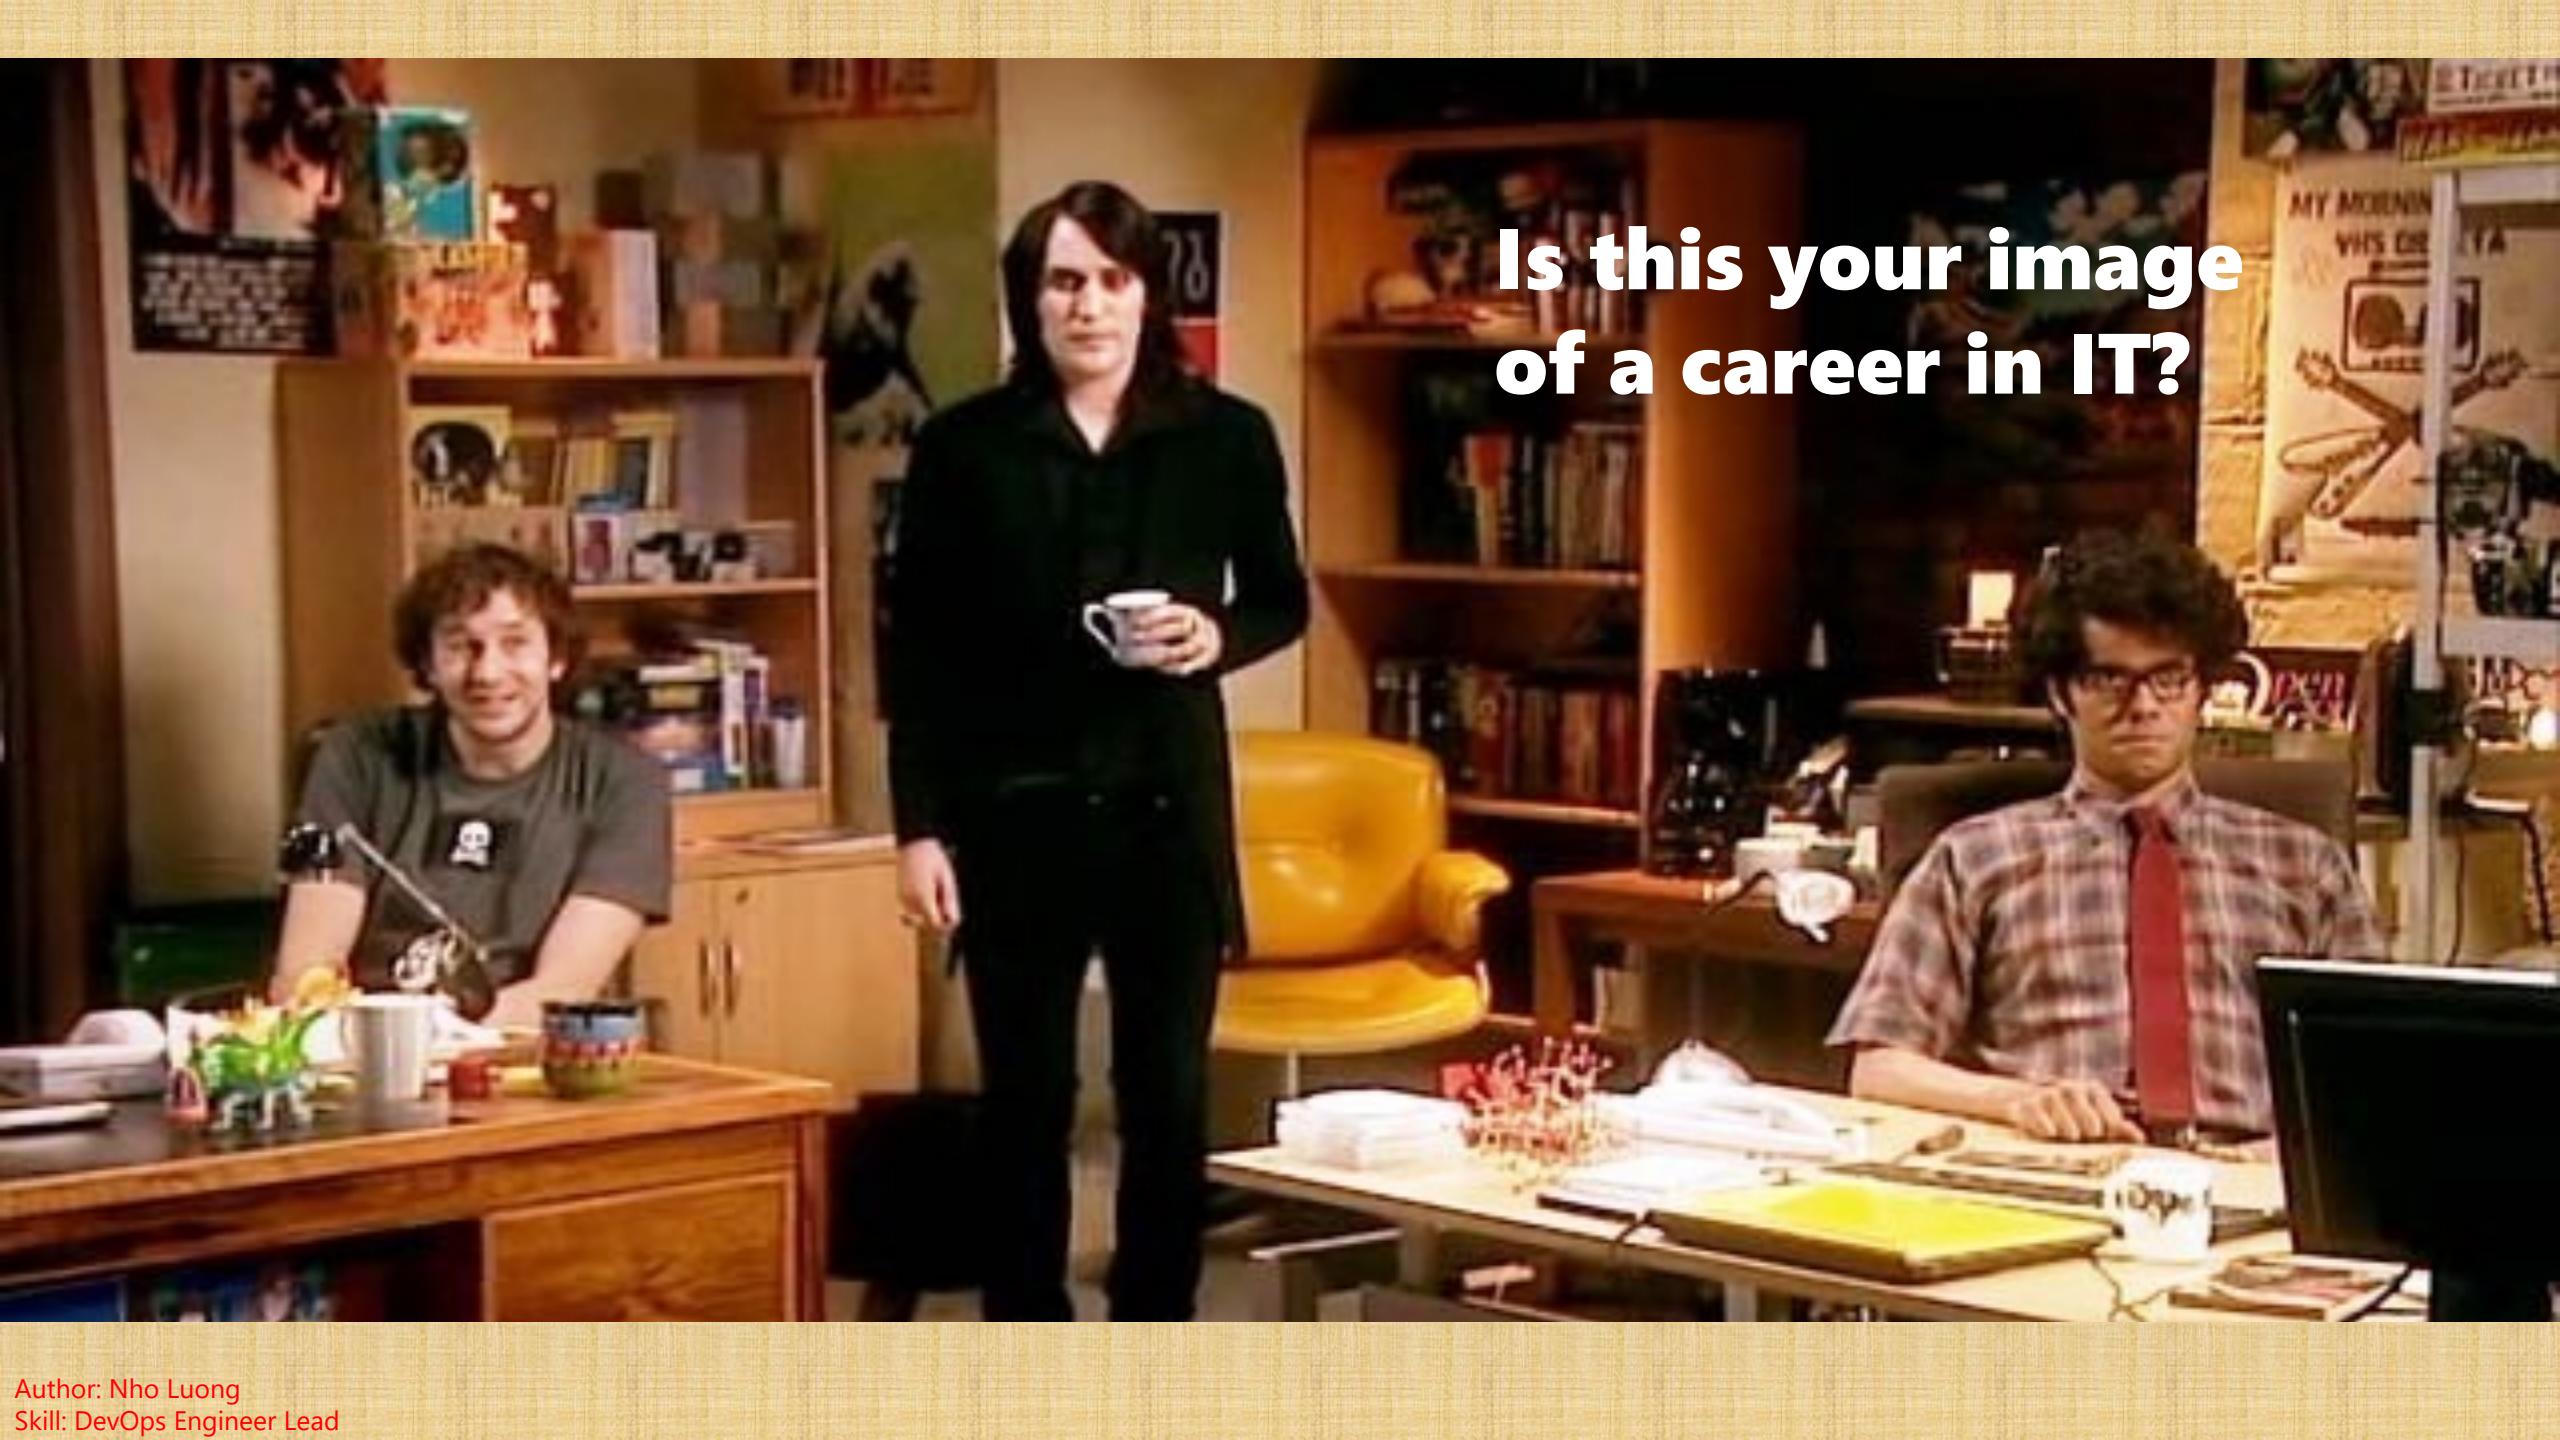

Author: Nho Luong
Skill: DevOps Engineer Lead

Screenshot of the Alpine Learning Platform dashboard under 'Certification status'. It shows four active AWS certifications: AWS Certified Solutions Architect - Professional (SAP), AWS Certified Security - Specialty (SCS), AWS Certified DevOps Engineer - Professional (DOP), and AWS Certified Solutions Architect - Associate (SAA). Each card includes active date (e.g., 2024-06-21) and expiration date (e.g., 2027-06-21). A 'VIEW MORE' link is also present.

Screenshot of the Microsoft Learn user profile for 'nho luong'. The 'Credentials' tab is selected, displaying four items: Microsoft Certified: DevOps Engineer Expert (expired June 15, 2025), Microsoft Certified: Azure Solutions Architect Expert (expired June 15, 2025), Microsoft Certified: Azure Administrator Associate (expired June 15, 2025), and Microsoft Certified: Azure Fundamentals (earned May 24, 2024). Each item includes a 'View certification details' link and an 'Online Verifiable' badge.

A scene from the British sitcom "IT Crowd". In the foreground, a man with glasses and a plaid shirt sits at a desk, looking directly at the camera with a neutral expression. Behind him, another man in a dark suit stands holding a white coffee cup. To the left, a third man sits at a desk, smiling slightly. The office is filled with bookshelves, posters, and various items, creating a cluttered, tech-savvy environment.
